Prepare for DAP CYE 2023
Arizona Healthcare Providers Are Connecting to Health Current

Start preparing for DAP CYE 2023 now!

Newly Eligible Provider Types:

- Physicians, MD & DO
- Physicians Assistants
- Registered Nurse Practitioners
- Assisted Living Homes & Centers

"The HIE is a huge part of our daily work… All of our physicians and medical assistants prepare for each appointment early in the morning—or sometimes the night before—by looking up the patient's information through the HIE portal."

– Practice Manager
Pendleton Pediatrics

healthcurrent
Imagine fully informed health

Benefits of connecting:

1. **Increase efficiency**
2. **Improve care quality**
3. **Save time & money**
4. **Receive higher AHCCCS payments**

As a healthcare provider in Arizona, you can **receive a higher reimbursement rate** through the AHCCCS Differential Adjusted Payment (DAP) program when you join and receive patient information from the Arizona **health information exchange (HIE)**.

To receive this increased reimbursement rate, the required first step is to join Arizona's HIE.

It's FREE!

Contact Health Current to get started.

Get connected today!

Imagine more complete data . . .

√ **New patient labs and records only a few clicks away**

√ **Real-time alerts when your high-needs patients are admitted or discharged from the hospital**

√ **Better coordination of patient care teams through secure electronic sharing of messages, notes and records**

Sound good? That's Why Arizona Healthcare Organizations are partnering with Arizona's HIE

Healthcare organizations are partnering with Health Current, Arizona's non-profit health information exchange (HIE). There are no participation fees and include these key benefits:

☐ **One connection to save time and resources**
   Making connections to other providers, hospitals, reference labs and health plans takes time and valuable resources from your practice. One connection saves time and allows real-time transfer of data from hospital encounters, reference lab results and other community provider encounters.

☐ **New patient information**
   Connection to the statewide HIE provides the ability to view current information and historical medical records in the HIE. Additionally, this information can be queried and downloaded to the electronic health record (EHR) of your practice.

☐ **Timely information to coordinate care**
   Clinicians who participate in the statewide HIE can "subscribe" to a list of their high-need patients that they need to track closely. With information on more than 90% of hospital admissions, discharges and transfers (ADTs), the HIE can send a real-time notice of ADTs as well as lab results and transcribed reports.

☐ **Secure communication**
   The use of the HIE's DirectTrust-certified, HIPAA-compliant secure email system facilitates the easy and secure exchange of patient information between providers, care team members and healthcare facilities.

Health Information Exchange (HIE) Services

The following are the services available through the HIE:

Alerts

Notifications sent to designated clinicians or individuals based upon a patient panel.

A patient panel is a practice or payer provided list of patients/members they wish to track. Alerts include:

- Inpatient Alerts
- Emergency Department (ED) Alerts
- Ambulatory Alerts
- Clinical Result Alerts
- Patient Centered Data Home ™ (PCDH) Alerts
- COVID-19 Lab Results

Direct Email

Direct Email is a HIPAA compliant, secure email account that provides the means for registered users to exchange patient protected health information with other DirectTrust-certified email accounts. Direct Email is often used to receive Alerts.

Portal

Secure web-based access that allows selected patient data to be viewed online.

Data Exchange

Electronic interfaces between patient tracking systems and the HIE. Data exchange services include:

- Unidirectional Exchange
- Bidirectional Exchange

Clinical Summary

A comprehensive Continuity of Care Document (CCD) containing up to 90 days of the patient's most recent clinical and encounter information. Clinical Summaries include:

- Automated Clinical Summary
- Query/ Response Clinical Summary
- PCDH Clinical Summary

Controlled Substances PMP Program

Integrated with the Arizona state Controlled Substances Prescription Monitoring Program (PMP) HIE participants who are connected to the HIE portal have a simple set up process to access the state PMP.

To sign up for this free service, contact recruitment at Health Current: recruitment@healthcurrent.org or 602-688-7216.
